

EasyID

Powered by TotalFreedom

Honeywell's EasyID™ software plug-in parses bar code data found on government-issued identification card for applications involving age verification or automatic electronic form population.

Powered by Honeywell's TotalFreedom™ open-system architecture, EasyID eliminates the need for host system software to process the encoded information contained within 1D and 2D bar codes on documents such as military issued IDs, driver's licenses and driver's permits.

EasyID can be pre-installed on select Honeywell imaging products or purchased as a standalone upgrade. After installing the plug-in, a simple programming sequence enables you to transmit up to 24 data fields in any order you choose. Separate fields by selecting one of six available delimiters.

When you enhance a Honeywell imager with EasyID, you've just taken an important step toward protecting your company and increasing efficiency.

Compatible with the following products:	
	MS7580 Genesis™
	MS1690 Focus®
	MS1633 FocusBT®
	MS1890 Focus®
	IS1650
	IS4920

Features

- Reduces Transaction Time by 95%:** It takes the average person approximately 45 seconds to manually enter license data. EasyID achieves the same result in the 2 seconds it takes to scan a license's bar code
- Eliminates Data Entry Error:** The average person makes one error for every 20 words typed—EasyID eliminates these costly errors by automatically populating electronic forms
- Reduces Liability:** EasyID takes the guesswork out of age verification, reducing the likelihood of selling age-restricted products to under age purchasers
- Achieves Regulatory Compliance:** Comply with HIPAA patient confidentiality regulations and other state and federal regulations regarding the acquisition of personal information by configuring EasyID to parse bar code data and remove sensitive information from being transmitted to the host system

EasyID in Action

Use EasyID in a wide variety of industries such as retail, healthcare and financial services to quickly and accurately populate an assortment of forms including:

- Employment applications
- Bank account applications
- Patient admittance forms
- Registration forms
- Loyalty program/membership applications
- Credit applications

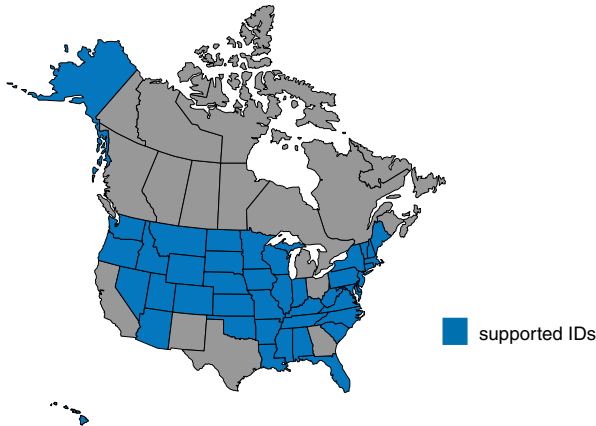

Automatically populate electronic forms in a single scan

Supported IDs

United States Driver's Licenses	AK AL AR AZ CO CT DC DE FL HI IA	ID IL IN KY KS LA MA MD ME MN MO	MS MT NC* ND NE NH NJ NV NY OK OR	PA RI SC SD TN UT VA VT WA WI WV WY
--	--	--	---	--

Government Issued IDs US Military ID*
